

You know you're somewhere special from the moment you walk into the dental offices of Dr. Rod Strober. The cabinetry is a rich dark brown, the furniture looks like it belongs in a comfortable living room, and the slight scent of lavender lingers in the air. Warm blankets, fluffy pillows and headphones are available to patients as they undergo examinations and procedures.

Welcome to the world of concierge dentistry, where Dr. Strober and his staff make your visit as enjoyable as possible. "We take special care to take patients out of the 'dental mode' and help them feel at ease," Dr. Strober says.

There's more to appreciate than the atmosphere. Dr. Strober is a highly skilled neuromuscular dentist offering both general and cosmetic dental services.

Strober Dental

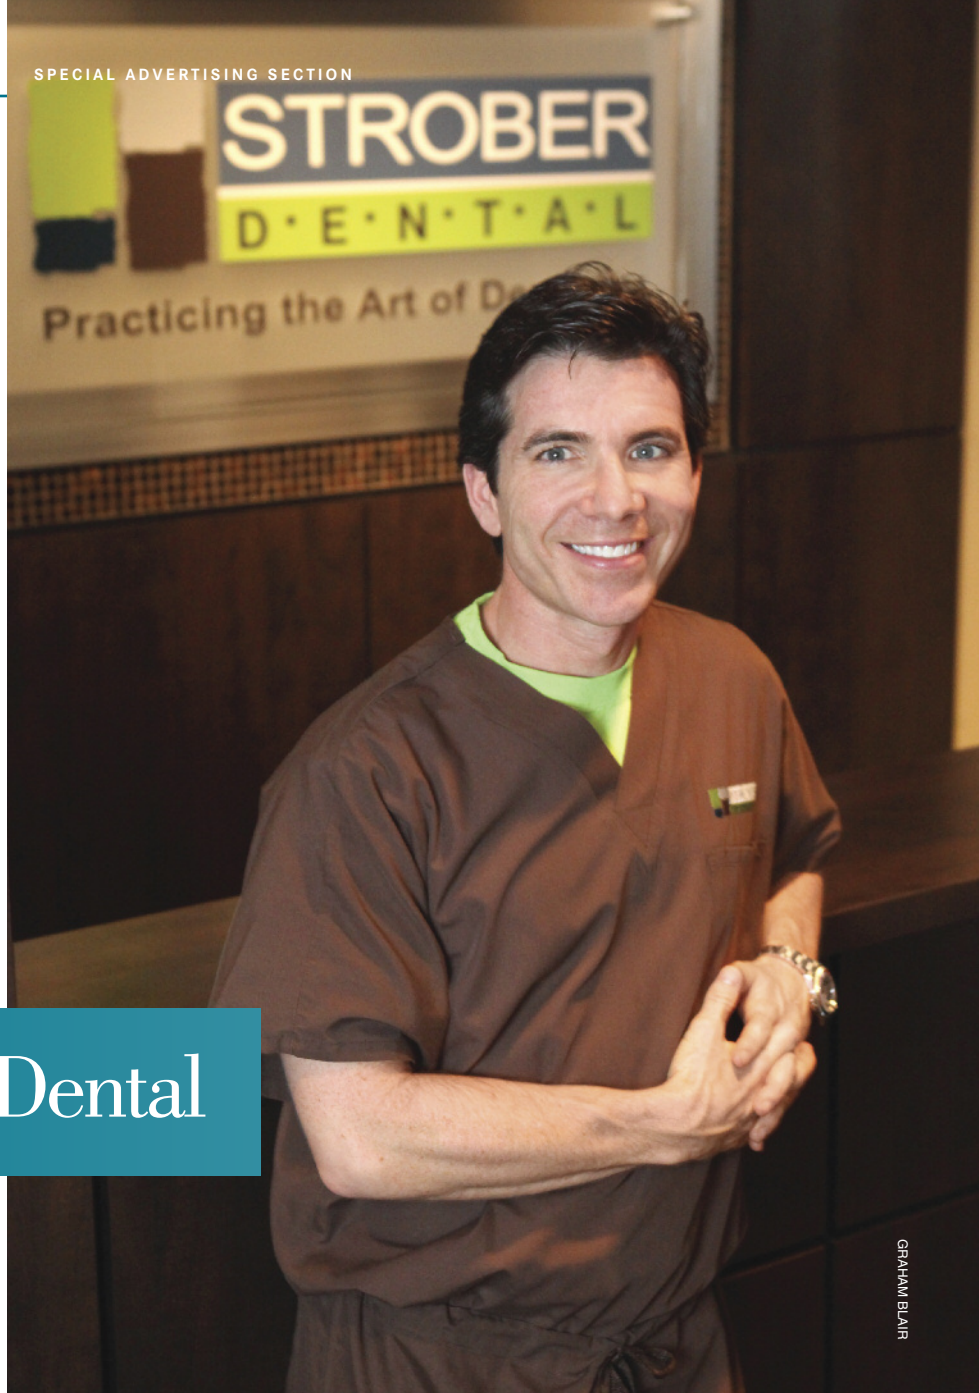

Dr. Strober has changed people's lives by eliminating years of debilitating migraine headaches, neck, back and TMJ pain through the use of state-of-the-art equipment that corrects a bad bite. He's even begun treating people with sleep apnea, because mouth and teeth issues can contribute to dangerous airway obstruction.

Whether patients come in for general or cosmetic dentistry, Dr. Strober centers on what he calls the "Healthy Mouth Baseline," a standard to maintaining good oral health.

As a CEREC dentist, Dr. Strober is able to provide time-efficient care by making beautiful porcelain fillings, onlays and crowns in his office in about an hour. Other cosmetic services include tooth-colored fillings, veneers, dental implants, Zoom! Whitening and Invisalign.

As an Invisalign Premier Provider, Dr. Strober has straightened the teeth of more than 300 patients without the use of metal wires and brackets. On October 28, Dr. Strober's practice will celebrate another Invisalign Day, when new patients can win prizes and take advantage of special offers.

"Come and enjoy our special day with us," he says. "Your smile will thank you."
